

JIBRIL ABSHIR

JUNIOR FULL STACK SOFTWARE DEVELOPER

Gothenburg - 96/07/12 - [Email](#) - [LinkedIn](#) - [GitHub](#) - [My Portfolio](#) +46729453312

PERSONAL PROFILE

I am a Junior Software Developer with a Full Stack Software Development education from the Code Institute. Proficient in HTML, CSS, Javascript, React, Node.js. I have 5 years of experience as an Inbound Warehouse Associate, working in a small, collaborative team and utilizing SAP software to organize incoming shipments. I am a valuable team player with strong communication skills and effective problem-solving ability. I am eager to gain entry into the tech industry and join an exciting development team where I can grow and contribute!

3. **Golden Age** - Exploring history through the lens of science.
<https://github.com/JibAb96/Golden-Age-Page>
Technologies Used - HTML5, CSS

WORK EXPERIENCE

May 2019 – Present Inbound Warehouse Associate Jollyroom Göteborg

- **SAP Utilisation:** I use SAP software to manage, track, and solve any problems in the system and organise inventory, ensuring that all stock movements are accurately recorded in the system.
- **Inspecting and Reporting:** I inspect incoming stock for quality and accuracy, where attention to detail is important, documenting any discrepancies or damages, and coordinating with my teammates. There is

a 48-hour time limit for registering stock so time management is important.

- **Storing and Inventory Management:** I organise and store approved stock in the designated areas, updating inventory records to ensure accurate stock levels.
